Competent Authority: Fideuram Asset Management (Ireland) dac is authorised in Ireland and regulated by Central Bank of Ireland as a Management Company as defined in Article 2(1), point (b), of Directive 2009/65/EC. This PRIIP is a Luxembourg UCITS managed by Fideuram Asset Management (Ireland) dac under the freedom to provide services in Luxembourg in accordance with Article 16 of Directive 2009/65/EC.

This key information document is valid as at 2023-06-14.

WHAT IS THE PRODUCT?

Type:

Mutual Investment Fund under Luxembourg Law governed by Part I of the Law of December 17, 2010.

Term:

This sub-fund is not subject to any fixed term. The Fund is established for an unlimited duration; it may be dissolved at any time with the mutual approval of the Management Company and the Depositary Bank. The Fund shall be liquidated in the cases provided for in Article 22 of the Law of December 17, 2010. The Management Company may decide to enter into liquidation the Sub-Fund in case of extraordinary events such as changes in the political, economical or monetary situation or when the net asset of the Sub-Fund is less than a minimum level for the Sub-Fund to be operated in an economically efficient manner, as further described in the Prospectus.

Objectives:

The Sub-Fund aims to gain significant exposure to the shares and other participation rights of companies that have their registered office or exercise most of their business activities in Switzerland, or that hold most of their holdings in companies with registered offices in that country via their remit as holding companies. Accordingly, the Management Company is authorised to invest in these securities either directly or via financial derivatives, or in units and/or shares of undertakings for collective investment that grant exposure to this type of assets or to indices that consist of this type of assets. Financial derivatives may be used for hedging and/or investment purposes.

In any event, investments in other UCITS and/or UCI will be limited to 10% of the Net Asset Value.

The Sub-Fund may also hold shares and participation rights in companies based in other countries, or straight and convertible bonds and bonds with warrants on an ancillary basis.

The Sub-Fund may be fully invested in Cash where the Management Company believes that market circumstances require it, in order to protect the interests of the Unit Holders. The Sub-fund does not fall within the scope of the regulation (UE) 2017/1131 on money market funds.

The benchmark of the Sub-Fund consists of the index "MSCI Switzerland 10/40 Net Return Index".

The Sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. It is expected that, in normal circumstances, a significant part of the investments of the Sub-Fund will be components of the benchmark, however there is discretion to invest in other securities not included in the benchmark.

This is a capitalization Unit-Class which reinvests all income generated by the Sub-Fund.

You may request to redeem the units held at any moment, in accordance with the Prospectus.

Intended Retail Investor:

The Sub-fund is suitable for investors who look for long term investments. The investor must be able to accept a certain volatility and the possibility of losing a part of the invested amount. This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

Said legislation may have an impact on your personal tax position.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for a minimum of 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.
 You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back. The redemption price may, depending on the evolution of the net asset value, be higher or lower than the paid issue price.
 Specific reasons, such as change restrictions or circumstances outside the control of the Depositary Bank, may render impossible the transfer of redemption amount in the country where the redemption is requested. In case of mass redemptions, the Management Company may decide to suspend the redemptions until it has sold the necessary assets.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
 We have classified this product as class 4 out of 7, which is a medium risk class.
 This rates the potential losses from future performance at a **medium** level, and poor market conditions could impact the capacity of the fund to pay you.

Other risks materially relevant not included in the SRI: Counterparty Risk, Derivatives Risk,

This product does not include any protection from future market performance. Please refer to the 'Risk' section of the prospectus for more details.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
 The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund completed where applicable by that of its reference framework over the last 10 years. Markets could develop very differently in the future.
 The stress scenario shows what you might get back in extreme market circumstances.
 This type of scenario occurred for an investment between 2013 - 2023.
 The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF FIDEURAM ASSET MANAGEMENT (IRELAND) DAC IS UNABLE TO PAY OUT?

There is no compensation or guarantees for investors in the event of the insolvency of the Management company. It is specified that each mutual investment fund constitutes an autonomous and separate asset in all respects from the assets of the Management company and from that of each investor as well as from any other assets managed by the same Management company. Furthermore, the Management company is liable exclusively for the obligations contracted on behalf of the Sub-Fund with the assets of the same fund. On those assets actions by creditors of the Management company or creditors of the depositary or sub-depositary are not permitted. The creditors of individual investors are permitted to take action only on the units/shares held by the individual investors. The Management company may in no case use, in its own interest or in the interest of third parties, the assets belonging to the managed funds.

WHAT ARE THE COSTS?

The person selling or advising this product may charge other costs, in which case this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10 000 is invested.

Investment: 10 000 CHF	If you exit after 1 year	If you exit after 5 years
Total Costs	390 CHF	1 434 CHF
Annual Cost Impact*	3.9%	2.2%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.5% before costs and 5.2% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.01% of the amount you pay in when entering this investment (including fixed fees)	201 CHF
Exit costs	0.05% of your investment before it is paid out to you (including fixed fees)	5 CHF
Ongoing costs		
Management fees and other administrative or operating costs	1.59% of the value of your investment per year. This amount is based on costs incurred for the custody, the administration and the management of the product.	164 CHF
Portfolio transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	21 CHF
Incidental costs taken under specific conditions		
Performance Fee	20% of the positive difference between the performance of the Sub-Fund/Unit-Class and the benchmark (as indicated in the Sub-Fund's investment policy) over the calendar year. The performance fee is calculated/accrued daily and paid annually. A performance fee may be paid even when the sub-fund overperforms the benchmark but with a negative absolute performance. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 CHF

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the sub-fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. If the holding period is shorter than the recommended minimum, this may have a negative impact on the sub-fund's risk and reward profile. We recommend that you discuss this with your advisor. You may request to redeem the units held at any moment, and on any business day, in accordance with the Prospectus. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

Any complaints must be sent by the investor to Fideuram Asset Management (Ireland) DAC in writing and according to one of the following methods indicated: registered letter with return receipt; e-mail to the address: info@fideuramireland.com. Complaints are considered validly received by the Management Company if they contain at least the following information: identification details of the person submitting the complaint; reasons for the complaint, details of the economic damage; sign-off or other element allowing for the identification of the investor. Complaints can also be sent by the investor to the authorized Distributors in the countries where the units of the sub-fund are distributed.
